SUMMARY

Self-directed Web Developer with hands-on full-stack experience using JavaScript, React, Next.js, Node.js, Python, REST APIs, and responsive web design. Built independent projects spanning frontend UI engineering, backend development, full-stack applications, and AI-integrated web experiences. Background in direct sales and affiliate marketing provides strong communication, client-facing, outreach, and negotiation skills. Bachelor of Arts student/graduate in Economics with a strong focus on building practical software projects and continuously expanding technical skills.

TECHNICAL SKILLS

Languages: JavaScript, Python

Frontend: HTML5, CSS3, React, Next.js 14, Tailwind CSS, Framer Motion, Responsive Web Design

Backend: Node.js, REST APIs

Tools: Git, GitHub, VS Code

AI & APIs: Anthropic API Integration

PROJECTS

Spotify Clone

React, Tailwind CSS, Node.js

- Developed a full-stack music streaming application with a completed backend and responsive React frontend.
- Built a dark, glassmorphic user interface using React and Tailwind CSS with a focus on responsive UI engineering.
- Applied frontend and backend development concepts to create an end-to-end web application.

SmileCare – Dental Clinic & E-Commerce Site

Next.js 14, React, Tailwind CSS, Framer Motion

- Developed a production-style marketing and e-commerce website using Next.js and React.
- Implemented animated UI components, responsive layouts, and reusable styling with Tailwind CSS and Framer Motion.

JARVIS – AI Voice Assistant

JavaScript, Anthropic API

- Developed a browser-based AI assistant integrating the Anthropic API for natural-language interaction.
- Implemented API-based AI functionality in a standalone web application using JavaScript.

Edifica Academy – School Website

React, HTML5, CSS3

- Developed a responsive institutional website as both a React application and standalone static build.
- Applied responsive web design principles to create a consistent experience across screen sizes.
